

SPL-9801/KW heliport outdoor light controller

Brief introduction:

SPL-9801/KW is a heliport outdoor light controller, suits all kinds of heliport lights' on-off controller. It controls and shows all the heliport navigation lights' work status. This product is outdoor type, ingress protection is IP54, can be used in the outdoor directly.

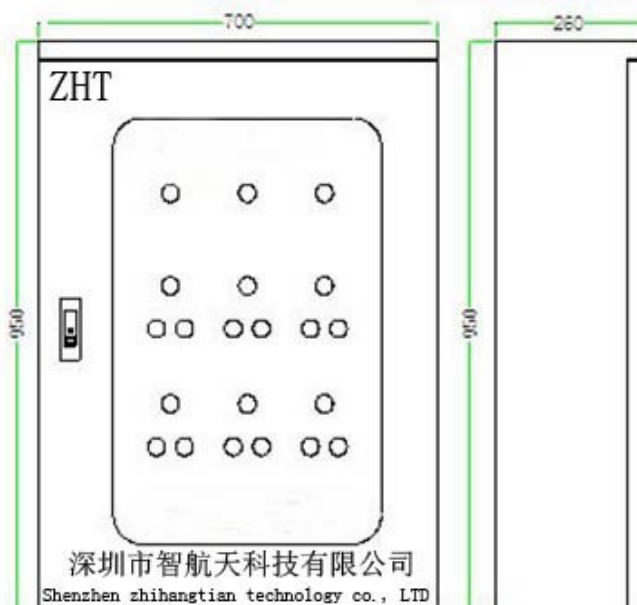

Key Feature:

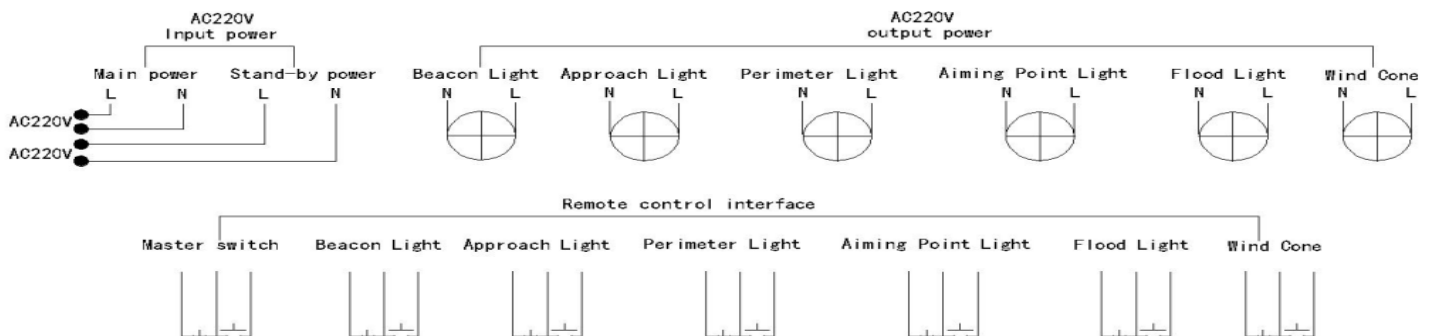

- ◎ House is made of steel painted by spraying plastics finish which is corrosion Resistance and anti-UV.
- ◎ It has 6 circuits of output, and it can be changed according to requirement. There are Auto, Manual and Remote three modes for user's choice.
- ◎ This controller is powerful, reliable, safe, easy to use and maintain, convenient.
- ◎ It has surge protection whose lightning proof ability is In 15KA/5 times, I_{max} 40KA so that the light is suitable to harsh environment.

Main technical parameters:

Item	parameter
model	SPL-9801/KW
Operating voltage	AC220V
Power consumption	≤30W
Load capacity	≤4000W
Number of control	6ways

lightings circuit lines	
Ingress Protection	IP54
Environment humidity	0~95%
Operating temperature	-40°C~60°C
Altitude	≤4500m
Net Weight	50kg
Overall	900mm×750mm×2
